Fill Your Room with the Sweet Sound of iPod/iPhone

Visit any hi-fi store these days and you'll see countless dock-and-speaker systems for iPod or iPhone. So, you may ask, what sets the ABX-100 apart from the crowd? Onkyo's keen dedication to build quality and audio performance, that's what. The first thing you notice about the ABX-100 is the elegant brushed-aluminum dock cover and matching solid aluminum foot-base. Sliding open the cover reveals an easy-to-read graphical LCD display and touch-sensor buttons. Here, eye-pleasing looks are complemented by ear-pleasing sound. The ABX-100's top-side dock for iPod/iPhone connects to precision-engineered amplifier circuitry inside. A pair of full-range speakers then deliver room-filling resonance for your podcasts and music. Further connectivity is provided by a 3.5 mm analog audio input that enables you to hook up other audio devices, such as a portable CD or MP3 player. It all adds up to a stylish and simple audio solution for your office, den, or bedroom.

MAIN FEATURES

- iPod/iPhone Audio Connection and Power Recharging

- iPod classic
- iPod nano (2nd, 3rd, 4th, 5th, and 6th generation)

Updating iPod/iPhone software is advised before using the ABX-100.

iOnly_{PLAY} ABX-100 iPod/iPhone MUSIC SYSTEM

iPod/iPhone Audio System with a Touch of Class

As well as letting you get more out of your iPod or iPhone, the ABX-100 adds a note of understated style to your listening space. Sliding the brushed-aluminum top cover to the left reveals a dock for iPod/iPhone and an easy-to-read graphical LCD that clearly displays your song information. The sleek, elegant theme is maintained by touch-sensor buttons that give you seamless control of your music sources. The system is mounted on a solid brushed aluminum foot-base that matches the top cover. Meanwhile, three-mode underside illumination brings a subtle ambient glow to your bedroom or other space.

Built-in Dock for iPod/iPhone

The ABX-100's built-in dock for iPod/iPhone lets you play back all your favorite music and podcasts in a variety of audio formats. Your iPod/iPhone is automatically recharged whenever it sits in the dock, and you can operate major functions on the device with the ABX-100's remote controller.

Quality Onkyo Speaker Design

Onkyo has decades of experience in crafting high-quality speakers for all segments of the audio market. The ABX-100's two full-range, bass-reflex speakers incorporate 6 cm cones and are housed in independent cabinets to minimize interference. You get to enjoy a richly musical performance that belies the system's modest dimensions.

Active Bass Control

At quiet volume levels, human hearing becomes less sensitive to sounds at the upper and lower ends of the audible spectrum. To compensate for the perceived loss of bass sounds at lower volumes, the ABX-100 incorporates Onkyo's proprietary Active Bass Control. This function maintains an optimal balance of low-frequency sounds by making automatic, real-time adjustments in line with the playback volume. Listeners are able to enjoy smooth and natural-sounding bass at any volume level.

SPECIFICATIONS

Amplifier Section

Power Output 10 W + 10 W (6 Ω, 1 kHz)
