

DV-SP501

DVD/CD/MP3 CD PLAYER

ONKYO
IMAGINATIVE SIGHT & SOUND

Available in Gold or Black

A Stylishly Slim Source of Your Audio and Video Needs

At Onkyo, our commitment to providing you with the final word in sound and video quality now takes on a more elegant look with the DV-SP501. Within its streamlined frame, you'll find the quality parts that lead to the performance characteristics that have made this company a top choice of audiophiles for over 50 years. Our exclusive Experiencinema concept provides the finest performance with a state of the art 192 kHz/24-bit Burr Brown audio DAC, 2-3 pulldown progressive scan and the features only Onkyo can give you—VLSC (Vector Linear Shaping Circuitry) and Direct Digital Path. The result is a DVD player with the versatility to handle the majority of discs on the market today and the design for easy placement anywhere.

Experiencinema

Our over 50 years of experience in Imaginative Sight & Sound allows you to experience pure listening and viewing pleasure through our Experiencinema concept. Onkyo not only provides you with the highest picture quality available, through progressive scan, but also audiophile quality sound from 192 kHz/24-bit D/A converters and Onkyo exclusives Direct Digital Path technology and VLSC (Vector Linear Shaping Circuitry). All of this adds up to a truly astounding sight & sound experience. Experiencinema—the way it was meant to be.

State of the Art 192 kHz/24-Bit Burr Brown DAC

This top-quality digital-to-analog converter utilizes Burr-Brown's enhanced multi-level delta-sigma architecture, which employs 4th-order noise shaping and 8-level amplitude quantization to achieve excellent dynamic performance and improved tolerance to clock jitter.

Exclusive Direct Digital Path

Unlike other DVD players that use PC-board copper traces to transfer the digital audio signal, the DV-SP501 employs a high-purity, heavy-gauge, shielded cable to directly output the 96 kHz/24-bit digital bitstream straight from the disc to the back panel. The result is a noise-free digital audio signal that is less susceptible to flux.

Outstanding Disc Compatibility

While all DVD players can play CDs, the DV-SP501 can also play both CD-R/DVD-Rs (write-once) and CD-RW/DVD-RWs (rewritable) as well as CDs that hold MP3 and Kodak picture coded files.

VLSC (Vector Linear Shaping Circuitry)

Conventional D/A conversion methods reduce digital pulse noise at the conversion stage but can't remove it completely. Previously only available on Onkyo's high-end components, VLSC (Vector Linear Shaping Circuitry) employs a unique D/A conversion circuit to overcome this problem. Data is converted between the sampling points and these discrete sampling points are joined with analog vectors in real-time to produce a smooth output wave form. The result—a noiseless, smooth analog signal based on the digital source.

MP3 Playback

Instead of using your small computer speakers, you can play over your home theater system the MP3 files you downloaded from the Internet and other sources—up to 10 hours or more of music on a single disc, depending on the bit rate of the MP3 files. The DV-SP501 will display the MP3 filenames on your TV screen, and you can program a playlist of up to 24 songs from the same disc.

2-3 Pulldown Progressive Scan

Most DVDs are "progressive"—meaning they produce video in complete frames. But to be compatible with all TVs, the DVD signal must be interlaced—a method where the picture is split into two fields and then blurred together to look like one. The 2-3 pulldown progressive scan on the DV-SP501 "paints" all the visible lines in a single pass—so you'll enjoy a scan-line-free image, spectacularly clear color, no motion artifacts, and details so sharp they seem as if they're etched onto the screen of compatible displays such as HDTV, plasma or digital TV and home theater projectors.

Black model

DV-SP501

DVD/CD/MP3 CD PLAYER

Video Features

- Plays DVDs, MP3 CDs, WMA CDs, CD-RWs, DVD-R/RWs*, Kodak and JPEG encoded Picture CDs, Video and Audio CDs
- Advanced 54 MHz/10-bit video D/A conversion (for Progressive Scan)
- 2-3 Pull-down Progressive Scan video output
- Passes PLUGE signals
- Last play memory (5 DVDs) and resume function
- Program Playback
- Program Memory (24 DVDs)
- Onscreen display (position), and parental lock
- DVD, CD & VCD fast forward and reverse (DVD: 3 speeds; CD/VCD: 2 speeds)
- Slow motion DVD playback (without sound) at 1/2, 1/4, 1/8 or 1/16 the normal speed
- 4-Mode repeat (title, chapters, tracks, A-B block)
- Random playback (DVD, CD, MP3 folder/track)
- 8-Language soundtrack capability
- 32 Subtitle languages
- Multi-aspect ratio (16:9, 4:3)
- Multi-camera angle
- Full-time active video outputs (composite, S-video, component-video)
- Screen saver

*Discs that have not been properly finalized may only be partially playable or not playable at all

Audio Features

- VLSC-Vector Linear Shaping Circuitry
- 192 kHz/24-bit audio DAC
- 96 kHz or 48 kHz selectable digital output
- Direct Digital Path
- Optical & coaxial digital outputs for DTS/Dolby Digital/PCM
- Audio dynamic range control
- Plays up to 10 hours of music on a single MP3 CD (depending on the MP3-file bit rate)

Other Performance Features

- Dual-laser optical pickup
- Full set of A/V outputs (composite, S-video, component-video)
- DVD Quick-Start Play
- Bit-rate meter display
- High resolution onscreen display (English, Chinese)
- Front panel cursor control
- 3-Level display dimmer (Normal, dim, dark)
- PAL/Auto Mode
- Supplied A/V and S-video cables
- Full-function RI-compatible remote control

Full-function RI-compatible Remote

SPECIFICATIONS

VIDEO SECTION

Signal System	PAL/Auto Mode
S-Video Output/Impedance	1.0 Vp-p/75 Ω (Component and S-Video Y) 0.286 Vp-p/75 Ω (S-Video C)
Component Signal Output/Impedance	0.7 Vp-p/75 Ω (Component Pb/Pa)
Video Output/Impedance	1.0 Vp-p/75 Ω (Composite)

AUDIO SECTION

Frequency Response	
DVD Liner Sound	4 Hz-44 kHz (96 kHz)
	4 Hz-22 kHz (48 kHz)
Audio CD	4 Hz-20 kHz (44.1 kHz)
S/N Ratio	106 dB
Audio Dynamic Range	96 dB
THD (Total Harmonic Distortion)	0.008 % (1 kHz)
Wow and Flutter	Below threshold of measurability
Audio Output	
Optical	-22.5 dBm
Audio Output/Impedance	
Coaxial	0.5 Vp-p/75 Ω
Analog	2.0 V (rms)/470 Ω
GENERAL	
Power Supply	AC 100-240 V, 50/60 Hz
Power Consumption	15 W
Dimensions (W x H x D)	435 x 81 x 307 mm
Weight	3.3 kg
